applicationfeedback@townofbluffton.com

The following information shall be included as part of a Building Permit application submitted for review. This checklist is intended to assist in the provision of the minimum documentation necessary to demonstrate compliance with the applicable Building Code regulations. Depending on the proposal, the amount and type of documentation will vary.

New Residential, Additions/Remodels
1. Building Permit Master Application
2. Development Status Form
3. License Requirement
4. Refuse Disposal Plan
5. Window/Door Rating
6. Design Professional Form
7. Stormwater Erosion Control Affidavit
8. Mechanical Certifications (if electrical, mechanical, and plumbing work is involved. Due at time of application).
9. Owner Contractor Disclosure Statement
10. Three (3) sets of plans signed and sealed by a South Carolina Design Professional.
11. Three (3) sets of plans of the Site Plan or Survey.
12. Manual J and Manual S (if conditioned space).
13. Rescheck (if conditioned space).
14. BJWSA Will Serve Letter including distance to nearest existing sewer (if home is not in established neighborhood and/or PUD)
Minor Electrical, Mechanical, Plumbing & Gas
1. Building Permit Master Application
2. Refuse Disposal Form
3. Three (3) sets of plans signed and sealed by a South Carolina Professional (depends on scope of work).
4. Manual J & S (if adding conditioned space or changing HVAC system).
Irrigation, Swimming Pool, Spa & Water Feature
1. Building Permit Master Application
2. License Requirement
3. Refuse Disposal Form
4. Electrical Mechanical Certificate
5. Three (3) sets of plans of the survey or site plan (only for swimming pool, spa, and water feature).
6. Three (3) sets of plans (only for swimming pool, spa and water feature).
Additional Documentation Requirements for Inspections
1. Foundation survey & compaction slip are required for new structures & additions prior to pouring the foundation.
2. Flood elevation certificate (under construction) prior to foundation inspection. Final Flood Elevation Certificate prior to CO inspection (if construction is located in Flood Zone).
3. Mechanical Certifications (if electrical, mechanical, or plumbing work is involved.) Due prior to subcontractors beginning work at site.
4. Signed & sealed truss drawings, floor TJI's-detail layout, Flashing affidavit, & termite certificate – prior to rough in's & frame inspection.
5. Insulation certificate – prior to insulation inspection.
6. Sealing certificate & Roof affidavit – prior to permanent service inspection.
7. Sewer tap approval inspection or letter from BJWSA, duct sealing certificate, and residential energy code certificate - prior to building final inspection.

Development Status Form

***Please read the following carefully, fill in the fields, initial and sign in the appropriate areas.
This form is required at time of application.***

1. Provide signed statement that:

a. "Applicant acknowledges a Final Certificate of Construction Compliance has not been issued for the development associated with the subject property."

(Initial)

b. "Applicant acknowledges the Town of Bluffton will **not perform a permanent service and final building inspections for a Certificate of Occupancy** without the issuance of a Final Certificate of Construction and Compliance."

(Initial)

2. A Final Certificate of Compliance shall not be issued by the Town of Bluffton until a:

- i. Complete application for Final Certificate of Construction and Compliance is submitted by the Development Permit Applicant;
- ii. All necessary utilities to serve the development are installed;
- iii. All life safety measures including but not limited to traffic signage, traffic striping, lighting and accessible routes are installed;
- iv. All operating permits required as part of the development permit are issued; and
- v. The Engineer of Record for the development permit has issued a letter of general compliance.

The building permit applicant hereby accepts all risk associated with home construction without guarantee that a Final Certificate of Construction Compliance will be issued for the development on any given timeline.

My signature hereto signifies I am the owner/financially responsible party for job site compliance with the Stormwater Ordinance as outlined in Section 5.10 of the Unified Development Ordinance (UDO) and the Stormwater Design Manual Chapter 9.0. I hereby acknowledge that Best Management Practices must be used to ensure control of soil erosion on my job site to include, but not be limited to, the following:

1. Installation and regular maintenance of silt fencing using the preferred method of trenching installation on all low/down slope sides of the job site. Silt fence is to have an upslope return at each end no less than 5 feet; and
2. Installation and regular maintenance of a stone construction entrance. Stone construction entrance shall consist of a 2 inch to 3 inch coarse aggregate stone. Construction entrance shall be a minimum of 6 inches in thickness, 10 foot wide and extend to the structure or a minimum of 15 feet in length; and
3. Removal of mud and sediment from the street or adjacent property(ies) immediately following such an occurrence; and
4. Conduct no land disturbing activity within 35 feet of the banks of streams, lakes, wetlands or other water course or water body; and
5. Provide temporary vegetation and/or mulch on any exposed areas to provide an effective barrier from erosion within 14 days of inactivity; and
6. Install any other measures as deemed necessary by the Watershed Management Division Erosion and Sediment Control Program.
7. All construction site activities must adhere to the South Carolina Department of Health and Environmental Control (SCDHEC) General Permit SC0010000 for Large and Small Site Construction Activities.

I understand that if the disturbed area for any reason becomes greater than 43,560 square feet, or 21,780 square feet within ½ mile of the Critical Zone as defined by SCDHEC, a formal Stormwater Management Plan (SWPPP) with an Erosion Control Plan will be required to be submitted with proper fees for review, approval, and permitting. I further acknowledge the Town’s Building Safety Inspectors may refuse to conduct building inspections and the Watershed Management Division may issue Notices of Violation, Stop Work Orders, and/or Civil Penalties for failure to comply with Sediment & Erosion Control Requirements.

License Requirements

Please read carefully. This form is required at time of application.

Permit Number:

- *Individuals and entities involved in the construction, repair, or renovation of structures including mechanical construction are required to comply with licensing requirements of the State of South Carolina and the Town of Bluffton.*
- *Persons engaging in Business in the Town of Bluffton are required to have current Town Business Licenses.*
- *The contractor is aware that the sub-contractors, also known as independent contractors, which are hired by the contractor to perform services, are not employees. Sub-contractors are required to maintain a valid Town business license and state/local licenses or registrations as applicable when conducting business inside the town limits of Bluffton. This requirement also applies to individuals such as craftsmen or artisans not regularly employed by the contractor, but who are performing work on the job. Code enforcement inspectors will require proof of a current Town of Bluffton business license or proof of employment if an employee.*
- *No deductions shall be made on the permit application by a general or independent contractor for value of work performed by a subcontractor.*
- ***In no case*** will a permanent service or final inspection (if there is not a permanent service inspection) be processed until all required documentation is submitted to the office.

I, the undersigned have read and understand the above. I am the contractor in charge or authorized agent for the contractor in charge, or Owner.

Refuse Disposal Plan

You are required to dispose of all construction waste in accordance with related local, state, and federal regulations.

Permit Number:

Site Debris:

- 1. It shall be the responsibility of the permit holder to clean up and remove all construction debris as well as other related material or organic materials prior to receiving a final inspection approval.*
- 2. Waste shall be contained in such a manner as to prevent contamination of any adjacent property by any means.*

Hurricane Protection:

- 1. No permit holder shall allow construction related materials to remain loose or unsecured at a site from 24 hours after a hurricane watch has been issued until the hurricane watch/warning has been lifted. Materials shall be removed from the site or secured in such a manner as to minimize the danger of such materials causing damage to persons or property from weather emergencies.*
- 2. Failure to comply with this section will subject the permit holder to fines in accordance with the Town of Bluffton Municipal Code.*
